

Menahem

Burning horizon edge of the world,
Autumn spun galactic swirled –
Fears limits assumptions forsaking,
Lightning crackling shell breaking.

Couldn't be much more dramatic,
Phenomenologically enigmatic –
Heavenly demeanor honest eyes,
Look the goal for which he tries.

Scrolls scriptures ancient maps,
Post-modern mind networking apps –
Judging by everything findable here,
Inexorable omega drawing near.

Sense of direction committed to it,
Get it organized you can do it –
Caringly put the pieces together,
Be prepared unpredictable weather.
