**S**hooting star the sky caught fire,  
Passing evening nights desire,  
Cascading autumn mountainsides –  
Never leaving a thing untried.

**G**et down Justice unsecret lover,  
Heavens emissary from undercover,  
Fitting the broken pieces together –  
Bringing completion Love's endeavor.

**M**oments drift clouds float about,  
Always both sides inside out –  
Fair and honest undeniably present,  
Whom the dove with olive branch sent.

**R**eady help clean up this mess –  
Children hungry Earth distressed,  
Curtain of excuses us and her,  
Giants woken wind astir.
