

Donna

Who walks evenings twilight garden,
Hummingbird begs petals pardon –
Forget-me-nots pathways creep,
Wall shadows spiders sleep.

Complex loving worried stare,
Understanding words of care –
Envisioning relationships everyone wants,
Conception wholly escaped Kant.

Organized methodical touch miraculous,
Galactic fractal eye meticulous –
Honest sweet highly critical,
Perfectly balanced asymmetrical.

Blue clematis sunday trellis,
Edge of something special tell us –
If your heart would ask of reason,
What one thing this summer season?
