How lives entwine who can know,
No words nothing quite apropos –
Possibilities from intractable chance,
Narrative networks circumstance.

Heidegger has you sculpting clay,
En-spirited by Jupiter myth fragments say,
Resolving the conflict what name give –
In your Care as long as we live.

Floors immaculate pictures straight,
Appointments soirées never late –
Windowsill memories ne'er speck of dust,
Every guest equal perfect a must.

Honest refined cradling identity,
Creating definition human dignity –
World in wait love's jumpstart,
Saturn offers you the part.
