In between metaphor and fairytale,
Aiming for the skies that swallows sail –
The Story left off in a courtroom scene,
Is the Cosmos Conscious or a big machine?

Truth for You is absolutely essential,
Equality, history, democracy elemental –
Breaking symmetry with your candlelight,
Talking with Animals, Ontopoetic sight.

Joyous recounting moments with Friends,
Welcoming laughter, Moonlight ends –
At the crossroads for Justice and Peace,
The Meaning of this Space-time crease.

You could sense where the case was going,
Despite the charade, the instant Karma's showing –
The Planet needing a Star witness like you,
A Savior. You probably already knew that, too.
