

# Kelsea

**A**pples ripen in orchard suns,  
Fields turn golden / labors undone –  
Bees build up their honey stores,  
Sweetness outlasting the dinosaurs.

**S**titch by stitch / exact / even,  
Wanting it perfect for a Reason –  
Pictures straight / windows clean,  
Patiently evolving principal theme.

**S**cience / humanities / our sense of fair,  
Important details / that we can Care –  
Perceive what's out of equipoise,  
The narrative field awash in noise.

**G**iven the altruism of our organelles,  
Cultural change would do us well –  
It's always been kindness / helping others,  
Made mothers, fathers, sisters, brothers.
