Where it fantasy/all a dream,
You'd still whisper what it means –
Performing the already not yet seeing,
Harmony at the ground of being.

Lunar macramé / baroque pearls,
Falling leaves / river whirls –
Poised / easy-going / autumn air,
Sunset tangled in your hair.

Venus delights in your minds gifts,
Past post modern geometric shifts –
Social ease / honest / composed,
As for love – predisposed.

Meanwhile things are getting worse,
Culture needs a doctor / nurse –
Systems failing their analytical,
Condition the patient verging critical.
